

Sucrogen BioEthanol

Ethanol Products

We Back Every Drop

Sucrogen Ethanol is produced by fermenting molasses, a by-product of sugar cane. With two distilleries - one in Sarina (North Queensland) and the other in Yarraville (Melbourne), we are able to manufacture to the highest specifications for a wide range of industries including: printing, cosmetics, toiletries, aerosols, industrial chemicals, household cleaners, pharmaceutical, medical & biological products, food & beverages and paint & surface coatings.
